Ready for a daring, underwater adventure? Dive into the deep with Discovery Kids Shark app for iPad. Inspired by the buzz worthy television program, Shark Week, the app educates kids, ages 5-9, on the ocean's greatest predators through live-action video footage, photos and animated games—including a feeding game! Kids can learn about the different shark species, their feeding habits and where they live. [Download from iTunes](#) for \$5 and collect virtual trading cards as you scroll through the underwater scenes to share with family and friends via e-mail.

Watch the demo!
