## SCHOOL YEARS

### teacher trouble?

how to sort it out—fast

### is your kid ready to...

- do chores?
- join a team?
- be home alone?
- and 8 more!

when it's smart to **spy** on your child

**SPECIAL REPORT**  
the kids' health

### think global

Your kid will have a world of fun with the Discovery Kids Glow Star Globe. Its detailed surface shows the lay of the land—and water—from pole to pole. Flipping the switch at the base yields a cool surprise: the glowing constellations of the night sky. Ages 5 and up. (\$39.99; Toys "R" Us stores)
